Decidable or undecidable?

Whether a TM...

(a) has at least 301 states
(b) takes more than i steps on input x
(c) takes more than i steps on some input
(d) takes more than i steps on all inputs
(e) ever moves its head more than i tape cells away from tape start on input $\varepsilon$

(f) accepts the null string $\varepsilon$
(g) accepts any string at all
(h) accepts every string
(i) accepts a finite set

(j) accepts a regular set
(k) accepts a CFL
(l) accepts a recursive set
