Reflections

Shelby Kimmel
Announcements

• Tutoring on Sunday as usual.
• Test is cumulative, but will have a slight focus on new material since second midterm.
  o English to math will be on the exam
  o DFAs will NOT be on the exam
• You can bring one 1-sided sheet of hand-written notes.
• You must show up to MBH 403 (please come 10 min early) 9am on May. 17 or May. 18 (Thursday or Friday).
• Test is 3 hours.
• “Quiz” on canvas: What do you want to review on Monday? By 3pm Sunday
• Final Quiz Monday
Learning Goals Reminder

- go/cs200
Course Response Forms

WHY? (Beware of bias.)

1. For me: go/crf/

2. For tutors: go/CSTutorEvals/

3. If finish early, some motivation for the exam: http://inspirobot.me/

4. If finish early, and would like to learn more about gender bias in teaching evaluations: https://n.pr/2KNh8FP
Final Reflections

• What will I still remember 5 years from now that I learned in this course?
• What advice would I give a friend about how to learn the most in this course?
• If I were to teach this course, how would I change it?
• What have I learned about how I learn in this course that I could use in my future computer science courses? In my career?
• What topics do I feel that I deeply understand, and what topics do I still feel uncertain about?...Why?
