Announcements

- Tutoring on Sunday as usual.
- Test is cumulative, but will focus on new material since midterm.
- Exam will be available at my office Monday Dec 11 at 9am and the latest you should turn an exam in is Sunday, Dec. 17 at 6pm.
- Use sign-out sheet on my office door. You have 3 hours to take the exam. You have 3.5 hours from sign-in until drop-off. If I'm not in office, slide under door.
- I will try to be around my office from 9-5 during weekdays on final week. Please try to take the exam during that time. (FYI Monday and Friday afternoon I have meetings and won't be around.)
- IBM talk will be available hopefully next week – I'll send out a link in case you are interested.

Final Reflections

- What will I still remember 5 years from now that I learned in this course?
- What advice would I give a friend about how to learn the most in this course?
- If I were to teach this course, how would I change it?
- What have I learned about how I learn in this course that I could use in my future computer science courses? In my career?

Evals

WHY?

1. For me: [go/crf/](#)
2. For tutors: [go/CSTutorEvals/](#)
3. If finish early, some motivation for the exam:
