The loop will have 10 iterations, and each iteration will increment `sum` by 1 for a total of 10.

```
sum = 0
for i in range(10):
    sum = sum + 1
print(sum)
```

What will the above code print?

A. 0
B. 9
C. 10
D. 45

Answer: C
The loop will have 10 iterations, and each iteration will increment sum by i the loop variable, that is by the values in the sequence generated by range(10), e.g., sum = 0 + 1 + 2 + 3 ... + 9

Answer: D
sum = 0
for i in range(5):
    for j in range(5):
        sum = sum + i
print(sum)

What will the above code print?

A. 10
B. 50
C. 225
D. 500

Answer: B
Each iteration of the outer loop performs 5 iterations of the inner loop. Thus the computation performed is: sum = 0 + 0 + 0 + 0 + 0 + 1 + 1 + 1 + 1 + 1 ... 4 + 4 + 4 + 4 + 4
